Item no. 3840

Designation	Wallpaper corner bead white
Description	Wallpaper edge profile for wallpaper of all thicknesses, including fibreglass and textured wallpaper as well as wall coating material. The profile produces precise outer edges, protects wallpaper against damage and is extremely durable. The profile covers damaged or crooked corners and makes it easier to glue wallpaper to critical edges. The corner bead should be attached using assembly adhesive – such as Pattex, Assil D or Terostat 930 – as instructed by the manufacturer, and filler should be used to smooth out the connection to the wall. The profiles must also be fastened with clips.
