- Readily biodegradable surfactants

Smoothing spray for sealants

- Ready for use

Slide 10

- Mix ratio 1:10

Benefits of use

- Joint surface hardens faster
- Facilitates smoothing sealants
- Gives a smooth, beautiful joint surface

Areas of application

- Smoothing agent for glass and facade construction or for jointing in plumbing

Smoothers

ready to use + slide 10 concentrate

Range of use

- ▶ Assemblers
- ▶ Glaziers
- ▶ Natural stone businesses
- ▶ Construction Industry
- ▶ Plumbing trades

Directions for use

Smoothing agents for sealants - ready for use:

After applying the sealant, spray on the smoother and smooth with a joint spatula.

Slide 10 smoothers for sealants - concentrate:

Slightly untwist cap. Fill the dispenser head with 25 ml concentrate by lightly pressing the bottle walls. Remove cap and add the contents of the dispenser head to tap water. Add 25 ml concentrate to 250 ml water.

After applying the sealant, spray it with the diluted smoother and then smooth it with a joint spatula.

Caution

- ▶ May lead to corrosion in the grouting of steel parts. Perform preliminary tests first!
- ▶ Colour changes may occur on absorbent subsurfaces
- ▶ Remove excess smoothing agent.
- ▶ Do not apply to water-sensitive or swellable surfaces.
- ▶ In the case of incorrect or improper application, any product warranty becomes void.
- ▶ For professional and industrial use only.
- ▶ Please observe safety data sheet.
