DÖRKEN COATINGS

Revision: 22.02.2021

SECTION 1: Identification of the substance/mixture and of the company/undertaking **1.1 Product identifier** Trade name: LUCITE® 2K EpoxyHärter Safety data sheet number: 07-071243402001 1.2 Relevant identified uses of the substance or mixture and uses advised against No further relevant information available. Application of the substance / the mixture Hardening agent/ Curing agent Uses advised against This product is not suitable for uses other than those specified in the "Use of the substance/mixture". If your particular manner of use is not listed, please contact the creator of this safety data sheet. 1.3 Details of the supplier of the safety data sheet Manufacturer/Supplier: Dörken Coatings GmbH & Co. KG formely: CD-Color GmbH & Co. KG Wetterstr. 58 58313 Herdecke Germany www.doerkencoatings.de Phone: +49 2330 63 243 Fax: +49 2330 63 100 243 Further information obtainable from: msds.coatings@doerken.de 1.4 Emergency telephone number: Australia: 61-290372994 United Kingdom: 44-870-8200418 and 44-2038073798 **SECTION 2: Hazards identification** 2.1 Classification of the substance or mixture Classification according to Regulation (EC) No 1272/2008 GHS07 Skin Irrit. 2 H315 Causes skin irritation. Eye Irrit. 2 H319 Causes serious eye irritation. Skin Sens. 1 H317 May cause an allergic skin reaction. Aquatic Chronic 3 H412 Harmful to aquatic life with long lasting effects. 2.2 Label elements Labelling according to Regulation (EC) No 1272/2008 The product is classified and labelled according to the CLP regulation. (Contd. on page 2) - DE/EN

according to 1907/2006/EC, Article 31

(Contd. of page 1) Hazard pictograms Signal word Warning Hazard-determining components of labelling: Reaction product: bisphenol-A-(epichlorhydrin) epoxy resin (number average molecular weight \leq 700) Hazard statements H315 Causes skin irritation. H319 Causes serious eye irritation. H317 May cause an allergic skin reaction. H412 Harmful to aquatic life with long lasting effects. **Precautionary statements** P273 Avoid release to the environment. P280 Wear protective gloves / eye protection. IF ON SKIN: Wash with plenty of soap and water. P302+P352 P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. P337+P313 Take off contaminated clothing and wash it before reuse. P362+P364 P501 Dispose of contents/container in accordance with local/regional/national/international regulations. Additional information: EUH205 Contains epoxy constituents. May produce an allergic reaction. 2.3 Other hazards Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

Description: Mixture of substances listed below with nonhazardous additions.

Dangerous components:		
NLP: 500-033-5	$\begin{array}{l} \mbox{Reaction product: bisphenol-A-(epichlorhydrin) epoxy resin} \\ (number average molecular weight \leq 700) \\ \mbox{Aquatic Chronic 2, H411; Skin Irrit. 2, H315; Eye Irrit. 2, H319;} \\ \mbox{Skin Sens. 1, H317} \\ \mbox{Specific concentration limits: Skin Irrit. 2; H315: C $\geq 5 % \\ \mbox{Eye Irrit. 2; H319: C $\geq 5 % } \end{array}$	≥5-<25%

	(Con	to. of page 2)
CAS: 100-51-6	Benzyl alcohol	<5%
EINECS: 202-859-9	Acute Tox. 4, H302; Acute Tox. 4, H312; Acute Tox. 4, H332;	
Reg.nr.: 01-2119492630-38-xxxx	Eye Irrit. 2, H319	

Additional information: For the wording of the listed hazard phrases refer to section 16.

SECTION 4: First aid measures

4.1 Description of first aid measures

General information:

In all cases of doubt, or when symptoms persist, seek medical advice.

Soiled, soaked clothes immediately take off.

Never give anything by mouth to an unconscious person.

After inhalation:

Supply fresh air; consult doctor in case of complaints.

In case of unconsciousness place patient stably in side position for transportation.

After skin contact:

Immediately wash with water and soap and rinse thoroughly.

If skin irritation or rash occurs: Get medical advice/attention.

After eye contact:

Remove contact lenses. Keep eye lids open and rinse plentifully for at least 10 minutes with clean running water. Subsequently consult an ophthalmologist.

In case of troubles or persistent symptoms, consult an opthalmologist.

After swallowing:

Rinse mouth thoroughly with water. Drink plenty of water and provide fresh air. Call for a doctor immediately.

4.2 Most important symptoms and effects, both acute and delayed

Allergic reactions

After eye contact: May cause irritations.

4.3 Indication of any immediate medical attention and special treatment needed Symptomatic treatment.

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing agents:

Extinguishing powder, foam, carbon dioxide.

Use fire extinguishing methods suitable to surrounding conditions.

For safety reasons unsuitable extinguishing agents: Water with full jet

5.2 Special hazards arising from the substance or mixture

Fire will produce dangerous decomposition products like dense, black smoke, carbon dioxide (CO₂), carbon monoxide (CO) and nitrogen oxides (NOx). Inhalation may cause serious health damage. Under certain fire conditions, traces of other toxic gases cannot be excluded.

5.3 Advice for firefighters

Protective equipment:

Wear self-contained respiratory protective device. Wear fully protective suit.

Additional information

Collect contaminated fire fighting water separately. It must not enter the sewage system.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Wear protective equipment. Keep unprotected persons away. Avoid contact with skin and eyes.

6.2 Environmental precautions:

Do not allow product to reach sewage system or any water course. Inform respective authorities in case of seepage into water course or sewage system. Keep contaminated washing water and dispose of appropriately.

6.3 Methods and material for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose of the material collected according to regulations.

6.4 Reference to other sections

See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Avoid the handling of incompatible substances and mixtures. Incompatible substances: see section 10.5

7.2 Conditions for safe storage, including any incompatibilities Storage:

Requirements to be met by storerooms and receptacles:

Make sure spills can be contained, e.g. in sump pallets.

Protect from frost, heat and direct sunlight. Keep tightly closed, cool and dry.

Information about storage in one common storage facility:

Note the rules for common storage in accordance with TRGS 510 - "Storage of hazardous substances in transportable containers".

Store away from foodstuffs.

Further information about storage conditions: None.

Storage class: 10

7.3 Specific end use(s) No further relevant information available.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Additional information about design of technical facilities:

Ensure a good ventilation. This can be achieved by local exhaustion or general exhaust air.

Ingredients with limit values that require monitoring at the workplace:

107-98-2 1-Methoxy-2-propanol

	Short-term value: 568 mg/m³, 150 ppm Long-term value: 375 mg/m³, 100 ppm Skin	
	Long-term value: 370 mg/m ³ , 100 ppm 2(I);DFG, EU, Y	

100-51-6 Benzyl alcohol

AGW (Germany) Long-term value: 22 mg/m³, 5 ppm 2(I);DFG, H, Y, 11

Regulatory information

AGW (Germany): TRGS 900 IOELV (EU): (EU) 2019/1831

Ingredients with biological limit values:

107-98-2 1-Methoxy-2-propanol

BGW (Germany) 15 mg/l Untersuc

Untersuchungsmaterial: Urin Probennahmezeitpunkt: Expositionsende bzw. Schichtende Parameter: 1-Methoxypropan-2-ol

Regulatory information BGW (Germany): TRGS 903 **Additional information:** The lists valid during the making were used as basis.

8.2 Exposure controls Provide good ventilation and/or an exhaust system in the work area.

Personal protective equipment:

General protective and hygienic measures:

Wash hands before breaks and at the end of work.

Avoid contact with the eyes and skin.

Immediately remove all soiled and contaminated clothing

Do not eat, drink, smoke or sniff while working.

Use skin protection cream for skin protection.

In case of suffering from allergy, asthma and chronic illness of the respiratory system avoid use of this product.

Respiratory protection:

Use always breathing protection with splashing medium. Use combination filter type A(-P2) according to EN 141.

Protection of hands:

Work with gloves. Gloves must be inspected for damage before use. Defective or damaged gloves must not be used. Gloves must satisfy the specifications of EC directive 89/686/EWG and standard EN 374.

according to 1907/2006/EC, Article 31

Printing date 23.02.2021

Version number 02-01

Revision: 22.02.2021

(Contd. of page 5)

Trade name: LUCITE® 2K EpoxyHärter

It is recommended to use long gloves to minimize contact by splashing.

Material of gloves

Butyl rubber

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

Eye protection:

Tightly sealed safety goggles are to be worn during all work, in accordance with EN 166. Have eye wash bottle or eye rinse ready at work place. Professional Cooperative Rules - BGR 192 Use of eye and face protection

Body protection: Impervious protective clothing

9.1 Information on basic physical a General Information	and chemical properties	
Appearance:		
Form:	Fluid	
Colour:	White	
Odour:	Weak after glycol ethers	
Odour threshold:	For mixtures not applicable.	
pH-value:	Not determined.	
Change in condition Melting point/Freezing point: Initial boiling point and boiling ra	Not security-related. Inge: >100 °C	
Flash point:	>100 °C	
Flammability (solid, gas):	Not applicable.	
Ignition temperature:	Not applicable.	
Decomposition temperature:	For mixtures not applicable.	
Auto-ignition temperature:	Product is not selfigniting.	
Explosive properties:	Product does not present an explosion hazard.	
Explosion limits:		
Lower:	Not determined.

Upper:	Not determined.
Oxidising properties	In its condition as supplied, the product is neither flammable no oxidising.
Vapour pressure at 20 °C:	23 hPa
Relative density at 20 °C	~ 1.1
Vapour density	Not applicable.
Evaporation rate	For mixtures not applicable.
Solubility in / Miscibility with	
water:	Miscible / waterdilutable.
polar solvents:	Partly miscible.
non-polar solvents:	Not miscible or difficult to mix.
Partition coefficient: n-octanol/water:	For mixtures not applicable.
Viscosity:	Not security-related.
9.2 Other information	No further relevant information available.

SECTION 10: Stability and reactivity

10.1 Reactivity

No dangerous reactions are known.

No further relevant information available.

10.2 Chemical stability Product is stable under normal storage conditions.

10.3 Possibility of hazardous reactions

No dangerous reactions known.

No dangerous reactions are known.

10.4 Conditions to avoid No further relevant information available.

10.5 Incompatible materials: strong oxidizing agents

10.6 Hazardous decomposition products:

In case of fire arise: smoke and carbon oxides. Under certain fire conditions tracks of other toxic products can not be excluded.

SECTION 11: Toxicological information

11.1 Information on toxicological effects

Acute toxicity

The product is not tested as one of the above but rather is classified according to the conventional method (calculation procedure set out in the EU Regulation (EC) No 1272/2008) and according to the toxicological risks. See chapters 2 and 3 for detail.

LD/LC50 values relevant for classification:

The quoted data are literature values and/or manufacturer/supplier data.

General notes: Do not allow product to reach ground water, water course or sewage system.

12.5 Results of PBT and vPvB assessment

This product does not contain relevant substances that have been assessed as persistent, bioaccumulative and toxic (PBT) or as very persistent and very bioaccumulative (vPvB). **PBT:** Not applicable. **vPvB:** Not applicable.

12.6 Other adverse effects No further relevant information available.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Recommendation

Must not be disposed together with household garbage. Do not allow product to reach sewage system. Must be specially treated adhering to official regulations.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Directive 2012/18/EU

Named dangerous substances - ANNEX I None of the ingredients is listed.

REGULATION (EC) No 1907/2006 ANNEX XVII Conditions of restriction: 3

DIRECTIVE 2011/65/EU on the restriction of the use of certain hazardous substances in electrical and electronic equipment – Annex II

None of the ingredients is listed.

National regulations:

Information about limitation of use:

Observe employment restrictions concerning young persons.

Observe employment restrictions for expectant or nursing mothers.

Waterhazard class: Water hazard class 2 (Self-assessment): hazardous for water.

Labelling according to Regulation (EC) No 2004/42 Not applicable.
