MEGA 

Megamur Style Care Treatment Remover

Product description:

MEGA 686 Megamur Style Care Treatment Remover is a high-performance, alcohol-based cleaner.

Application:

To remove old, worn-out MEGA 684 Megamur Style Care Treatment coatings and as a basic cleaner before applying a new coating of care treatment with MEGA 684 Megamur Style Care Treatment. The Care Treatment Remover breaks down the existing layer of wax and makes it water-soluble.

Properties:

- easy to use
- high-performance
- takes effect quickly

Spec. weight:

Approx. 1.08 - 1.10 g/m³

pH value:

Approx. 11.5 - 13

Packaging size:

1 l

Consumption:

Approx. 1 l for 5 to 10 l of warm water

Reaction time:

Approx. 15 minutes

Drying process:

Allow to dry for at least 8 hours before applying a new coat of MEGA 684 Megamur Style Care Treatment.

Storage:

Cool, dry, frost-free. Unopened container can be stored for at least 18 months.
